Profile

Dedicated and detail-oriented Data Analyst with a solid foundation in data analysis and a keen interest in transforming raw data into actionable insights. Armed with proficiency in statistical analysis, data cleaning, and visualization, I am eager to contribute my skills to drive informed decision-making within a dynamic team environment. Strong hand-coded experience in core Python (pandas, NumPy, Matplotlib, Seaborn), JavaScript, SQL. Familiar with Jira and agile methodologies.

Professional Responsibilities

- Experience working with SQL servers and other Databases.
- Gather and collect relevant data from various sources.
- Clean and preprocess data to ensure accuracy and consistency.
- Perform exploratory data analysis (EDA) to identify patterns, trends, and anomalies.
- Utilize statistical techniques to derive meaningful insights from data.
- Clearly communicate findings and insights to both technical and non-technical stakeholders.
- Proven ability to work with different clients and find efficient BI solutions.
- Excellent verbal and communication skills.
- Ability to work independently and in teams, organizational skills and multitasking.
- Comfort working with Power BI data analytics tools and excellent data modeling.
